Read one of the greatest career stories of our time

Join us at the 2010 CDA National Career Conference to read firsthand the amazing career story of Li (Liam) - Mark Lee (Liam). Li will share with delegates insights and reflections on his life's journey from after poverty in West China, to graduation at age 11 into Master Lee's Beijing Dance Academy and the discipline, resistance, hard work and determination that made him one of the best dancers China has ever produced. His story of success in the US, followed by his dedication and hard work as a principal dancer in Australia as a principal dancer with the Australian Ballet is not to be missed.

For the first few years of his dancing career, Li studied in one of the Australian Secondary schools with a view of becoming a stockbroker. This meant rising at five in the morning to visit his daily tuition practice, then rushing to the stock exchange for work. By the time he joined the rest of the company's dancers for afternoon rehearsals, he had already put in a full day's work. Li made a successful career transition from bank to finance in 2008. He is a senior manager at one of the largest stock trading firms in Australia.
